Discover the Sunshine Online Difference!

Join the thousands of Australian teachers and students who have already discovered the magic of Sunshine Online and use it every day in their literacy program. Sunshine Online offers your school Australia's best digital literacy program at a price that you can afford.

Effective literacy teaching using technology.

Sunshine Online is a real literacy program – just delivered digitally! Teaching always starts with the book and the focus skills are treated within the context of that book. Our program works the same way. There are over 650 carefully levelled e-books and over 1000 activities that can be accessed on multiple devices such as iPads, computers, interactive TVs and whiteboards. The program can be used for whole class and small group teaching and for students independent reading at school and at home.

Sunshine Online is evidence-based.

A year-long study showed that Sunshine Online increases the literacy skills of students in the early years of schooling regardless of the student's ethnicity, entrance reading level or gender, and regardless of how the program was delivered. There were two key factors identified for this success: the first being the program's blend of technology and print which created a high level of student interest, and second, the program's scaffolded instruction which provided a framework for students to learn crucial literacy skills and gave them opportunities to apply and practise those skills.

Sunshine Online is highly animated, interactive and multimodal.

Sunshine Online includes hundreds of quality texts that will interest and engage students. They are able to listen to, read and view multimodal texts. Many of the fiction texts are brought to life with animation and many of the non-fiction texts have embedded video clips. Most texts offer narration and text highlighting to support the reader along with fun, interactive activities.

There are over 650 levelled e-books in Sunshine Online and over 1000 interactive activities!

Rich, varied and open-ended activities.

There are over 1000 interactive activities on Sunshine Online that are connected to the texts. They cover an extensive range of skills including phonic and word knowledge, comprehension, fluency, vocabulary, grammar, spelling and writing. Many of the activities are open-ended, allowing students to demonstrate their understanding of the text in creative ways.

There's maths too!

Sunshine Online includes an extensive maths section where literacy and maths are effectively linked. Animated maths e-books introduce maths concepts and language within the context of fun stories. These concepts are then explored through interactive activities, games and rhymes.

Cross-Curriculum.

Sunshine Online supports outcomes within The Australian Curriculum with a particular focus on English, Maths and Science and the cross-curriculum priorities. Linking documents can be found in the teacher support section called The Staffroom.

Real value for schools.

We think that all schools should be able to access the best online literacy program at a price that they can afford. During Term 3, we are even taking a further 30% off all new subscriptions!

Phonics and Words

PHONICS EBOOKS

- **Sunshine Online** features alphabet, letter blends and word family ebooks to help students develop understanding of sound-letter relationships.
- The letter blends and word family titles in Learning Space 2 offer students opportunities to explore and develop awareness of the onsets and rimes that make up these words.
- All ebooks have related activities for students to practise and consolidate their skills.

The ebooks introduce words from the focus word family or letter blend.

The interactive activity following the e-book allows students to apply their knowledge through word building.

HIGH-FREQUENCY WORDS

The Words section in Learning Space 1 provides beginning readers with fun interactive activities to help them learn 48 essential high-frequency words.

a I am

Here is _ tree.

Here is a tree.

WORD LIST			
a	get	little	this
all	go	look	to

The words are reinforced through a matching activity and then explored within context.

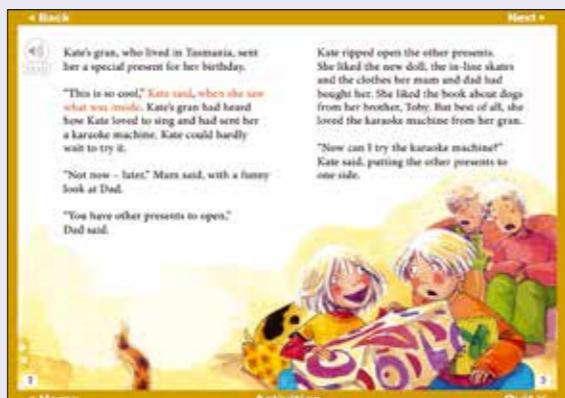

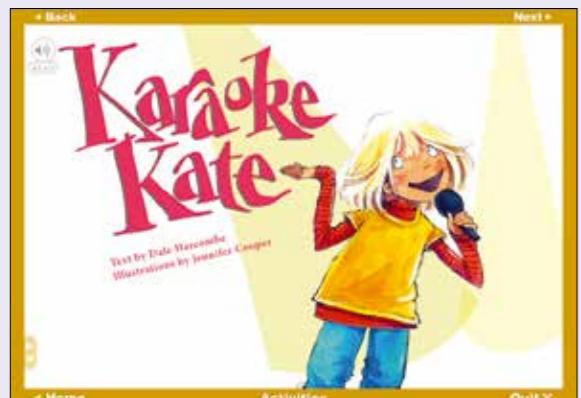

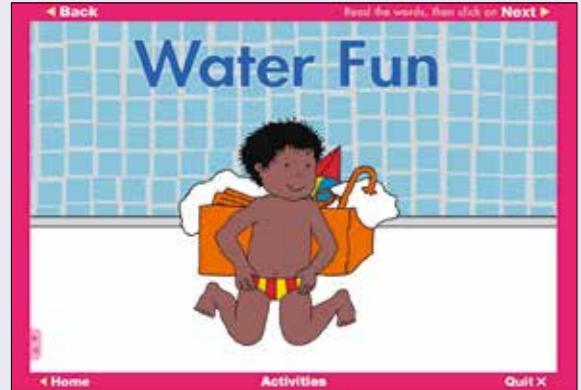

What do teachers say?

"Sunshine Online is an outstanding literacy program. There are other programs available similar in intent to Sunshine Online, but none supports our students to the level they require in order to develop a love and passion of reading and develop decoding and comprehension skills in such an engaging, fun way."

Jill, VIC

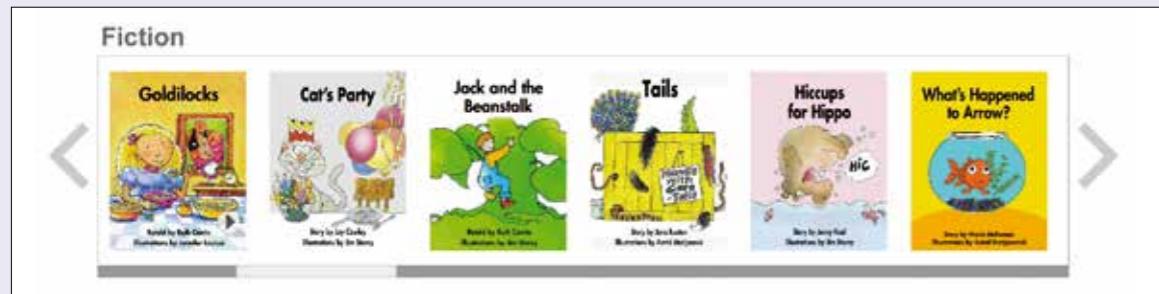

Fiction ebooks

- Sunshine Online includes a wide range of highly engaging texts by different authors, featuring interesting characters.
- Most of the titles are animated and have voice-over support and text highlighting.
- The titles are carefully levelled for Emergent through to Fluent readers.
- There is appropriate support and vocabulary development at each stage of the program.
- Each e-book is followed by up to three interactive learning activities.

THE BOOKSHELF

There is a bookshelf section in each learning space that provides students with more fiction ebooks to read independently and more e-Big Books for teachers to use for shared reading.

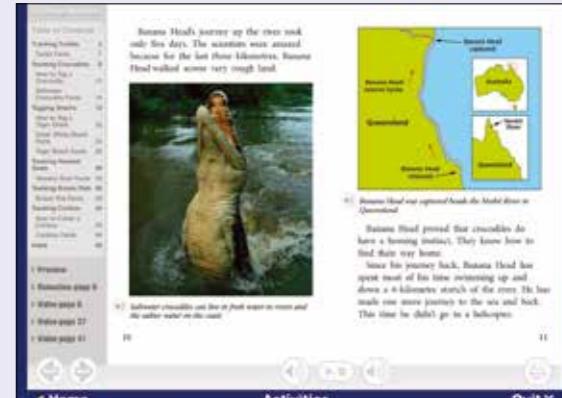

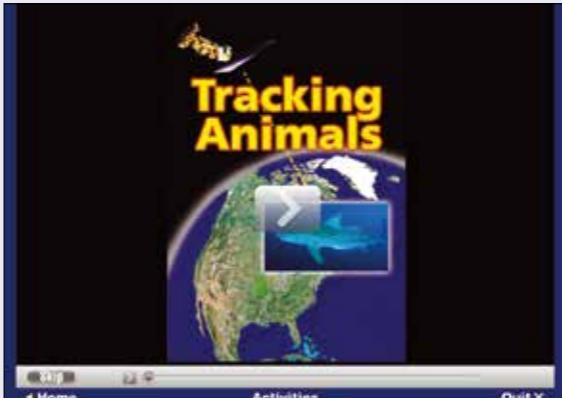

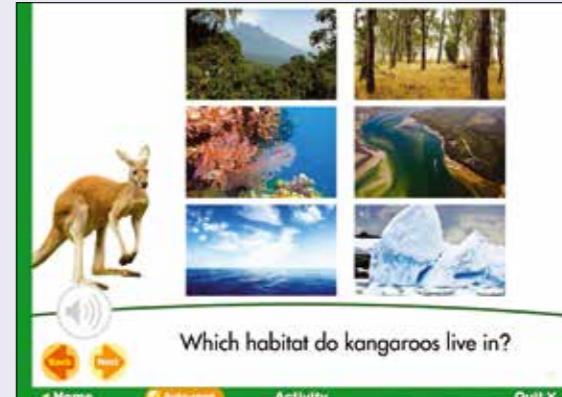

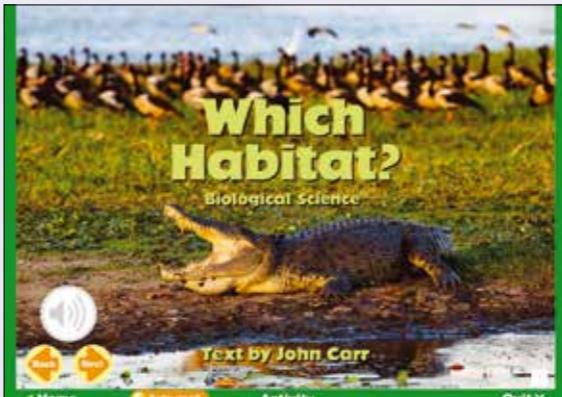

What do teachers say?

"We use Sunshine Online as a teaching tool, for individual work, small-group instruction and for whole class instruction on the IWB. Students love it! It has had very favourable responses from all children, particularly those who are often disenchanted with reading."

Cheryl, SA

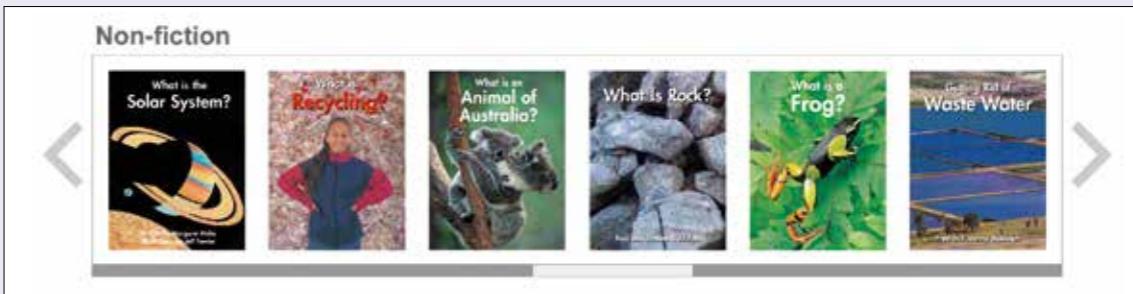

Non-Fiction ebooks

- The non-fiction ebooks feature high-interest and age-appropriate topics.
- The multi-modal texts feature embedded video clips to extend and enhance the content.
- Many of the texts are ideal for inquiry-based learning and support STEM education.
- Most of the titles are animated with voice-over support and text highlighting.

THE BOOKSHELF

Students can find more non-fiction ebooks in the bookshelf section to read independently. These texts are also ideal for shared reading and cross-curricular studies.

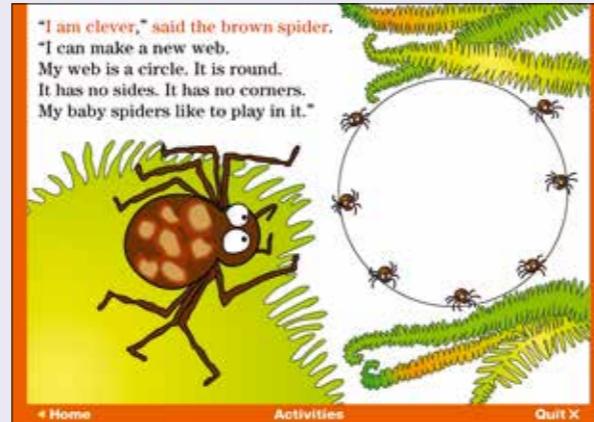

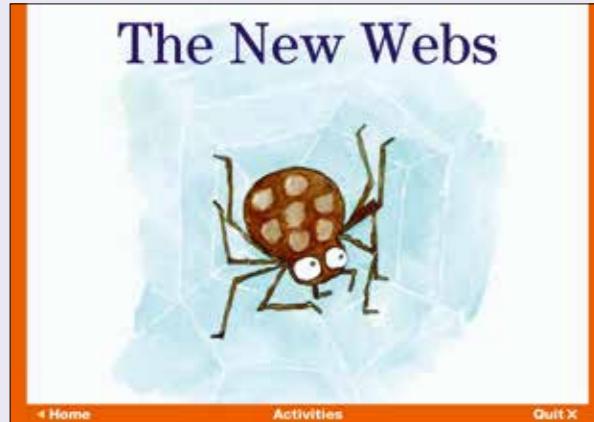

What do teachers say?

"This is one of the best resources we have purchased for our support unit. The texts are interesting for the students and they love the activities. It's great to have a variety of texts and to be able to hear them read in Australian accents."

Andrew, NSW

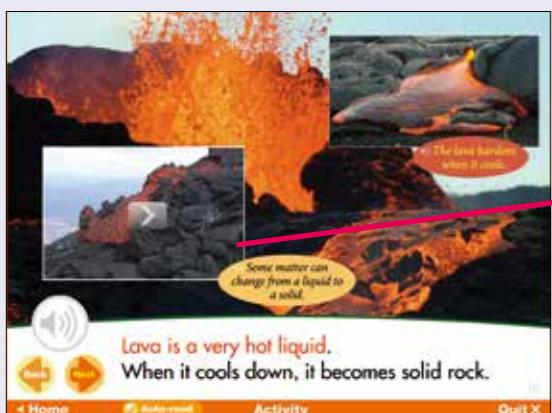

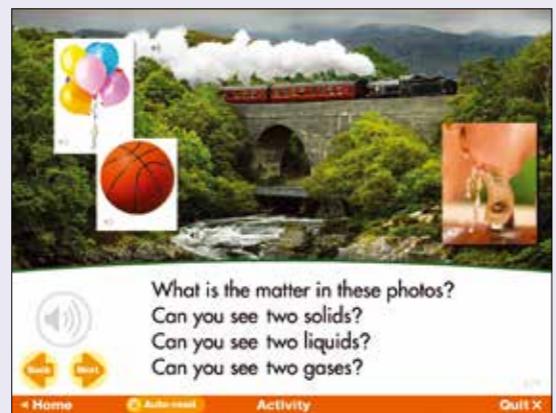

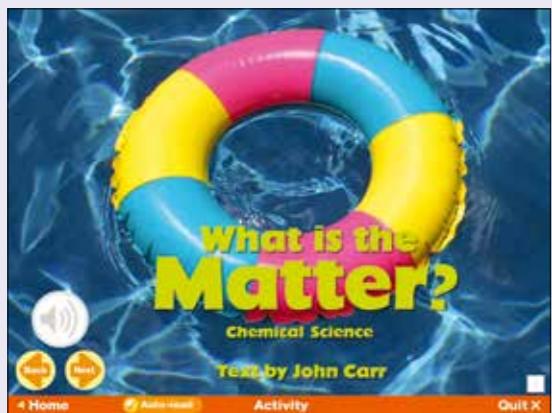

Maths

- The maths ebooks introduce maths language and concepts within the context of enjoyable stories.
- The content strands of Number and Algebra, Statistics and Probability, Measurement and Geometry are covered.
- Effectively links literacy and numeracy.
- Most of the ebooks are animated and all provide voice-over support.
- All titles are followed by up to three interactive activities and games.

Science

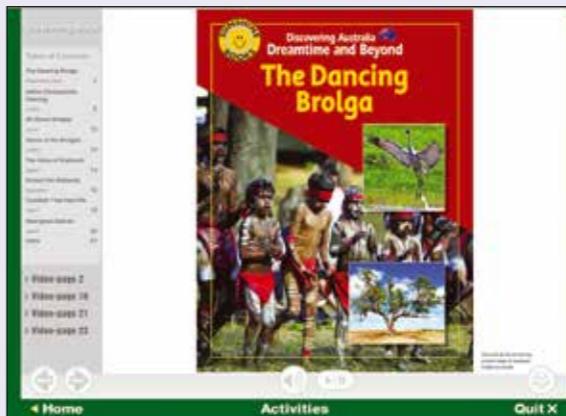

- The Science ebooks cover the Science Understanding sub-strands of Biological, Chemical, Earth and Space and Physical Sciences.
- Most of the texts feature embedded video clips and voice-over support.
- All titles are followed by interactive activities.

Embedded video clips

Indigenous Books

- These ebooks support the cross-curriculum priority of Aboriginal and Torres Strait Islanders histories and cultures.
- Each ebook features a Dreaming Story and related topics presented in a range of text types.
- Connected video clips are embedded in the text to support and extend student understanding.
- An open-ended interactive writing activity follows each text.

Brolga

Brolga was a beautiful young dancer who lived in the Dreamtime. She had shiny black feathers on her head and tail, and long, pointed wings. She could sing like a warbird in the breeze and wade like the wind.

As the great brolga, Brolga made up dances around the land, the spirits, the plants and the animals. He was a very good dancer and he was elegant and graceful. People would come from far away just to watch her dance.

One day, Brolga was dancing in the shadow of a coolibah tree when she was spied by an evil spirit named Womawarr. He lived in a dark hole in the ground. Womawarr was anyone or anything on land or sea that he could catch through his hole and eat. He came through the hole and down to where Brolga was dancing. In a flash of swirling dust and screeching wind, Womawarr caught Brolga off her feet and ate her.

Learning About Asia

- These ebooks support the cross-curriculum priority of Asia and Australia's engagement with Asia.
- Each ebook explores an interesting selection of topics from traditional stories through to contemporary issues.
- Connected video clips are embedded in the text to support and extend student understanding.
- Two open-ended writing activities follow each book to create a blog and a poster.

The Dragon

The dragon is a legendary creature in China. It often appears in folk stories, plays, songs, poems, dances and artwork.

In China the dragon is a symbol for power and good luck. It is thought to have special powers, especially to do with rain and water. It can change size and colour and become invisible. Lightning is said to be a dragon glowing in its stars.

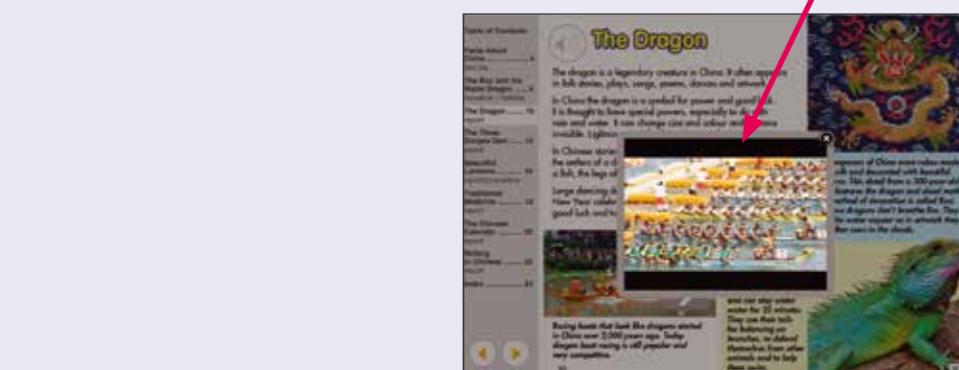

In Chinese stories the dragon usually has the head of a horse, the scales of a deer, the whiskers of a tiger, the scales of a fish, the legs of a lizard and the muscles of a tortoise.

Large dancing dragon puppets are often used in Chinese New Year celebrations. The dragons are thought to bring good luck and to frighten away the spirits that bring bad luck.

Racing boats that look like dragons started in China over 2,000 years ago. Today dragon boat racing is still popular and very competitive.

Chinese water dragons live near streams and ponds in warm forests. They are very strong and can stay under water for 25 minutes. They have tails for holding onto branches, to defend themselves from other animals and to help them swim.

Video clips are used to enhance the text.

Interactive Activities

- Sunshine Online includes over 1000 fun, interactive activities that explore a wide range of skills.
- All activities are connected to the ebooks.
- The open-ended nature of many of the activities allows students to demonstrate their understanding of the text in creative ways.
